FULLY ACCREDITED, PROFESSIONAL SERVICE

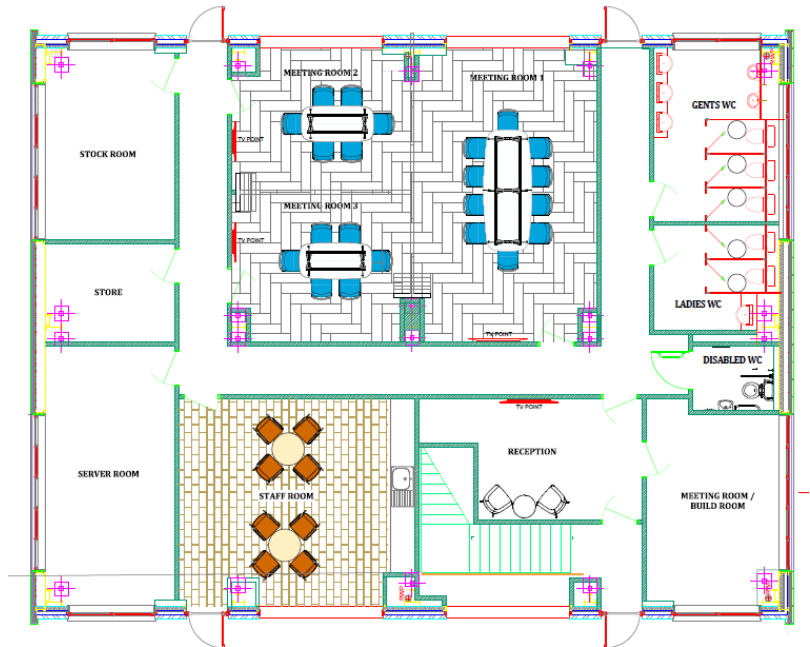

WORKING WITH OUR APPROVED INSPECTOR & H&S ADVISORS, WE ARE FULLY UP TO DATE WITH CDM REGULATIONS

We produce full working AutoCAD drawings, space planning services and full specification detailing to allow you to make the most informed decisions for your workspace needs.

We work with you all the way, from initial concepts through detailed drawings, to delivering the finished article; allowing your project to be completed both more quickly and cost effectively than if you were to employ external consultants to do the same job twice.

As commercial interior specialists we can develop designs for a range of workplace requirements.

- Receptions & Communal Corridors
- Showrooms & Trade Counters
- Office Areas & Meeting Rooms
- Canteen & Tea Point Facilities
- WC & Commercial Washrooms
- Locker & Changing Areas
- Warehouse Offices & Workshops
- Racking, Storage and Packing Areas
- Cold Stores & Controlled Areas

For all of our projects we complete detailed specifications on M&E providing; lighting designs, Power & Data plans, HVAC & Plumbing / Drainage plans. We minimise the risks of these works early on and make sure your company takes full advantage of the most economical and efficient building services available.

We also offer our services to larger construction groups, consultancies and architects. We can either take on full works packages for interior fit outs & refurbishments or complete works as subcontractors.

As subcontractors we specialise in the following fields, in which we can be extremely competitive, with quality of finish second to none: Suspended ceilings, Partitions, Glazed Screens, Dry-lining, Carpentry packages, Decorating, Raised access floors, Kitchen works and Cubicle / IPS systems.

DESIGN SOLUTIONS, HONEST ADVICE = HAPPY CLIENTS

WE STRIVE TO BE CREATIVE & INFORMATIVE, HELPING OUR CLIENTS ACHIEVE THE MOST OUT OF THEIR WORKSPACE

We take pride in what we design & build for all of our clients and have a real passion for delivering workspaces that look great and are fully fit for purpose.

Appointing Phoenix Systems as Main / Principal Contractors means that you will always be dealt with in a methodical and efficient manner. You will also work with the same project manager / management team throughout the process.

Here's what our clients say about us:

"Working with Phoenix Systems on new office was a breeze. From design to construction to fit out of our new office space with mezzanine floor, Phoenix turned an empty warehouse into a modern, open plan working environment for our office employees.

As a rather demanding customer, who wanted to be involved every step of the way, Phoenix worked with me to keep me informed of the progress and any last-minute modifications we requested were met with a can-do and positive attitude."

"We had our Mezzanine done by Phoenix and we found them excellent. From start to finish under difficult conditions they were extremely helpful and nothing was a problem. The finished job was superb. We would recommend Phoenix to anyone."

"We have been using Phoenix Systems for a number of years on various projects. Some of these include office builds, office refurbishment, the supply and installation of racking and partitioning in factories and offices.

We have found Phoenix to be professional in their approach to projects while being efficient and helpful in their implementation."

"I found working with Phoenix Systems on our recent office refurbishment a delight. Flexible, courteous and quality workmanship all contributed to a successful project bought in on time and budget"
